SKILLS

C • C++ • JavaScript • HTML5 • Python • Vercel • MySQL • MongoDB • Postgres • Canva • GitHub • GitLab • Selenium • Arduino

EXPERIENCE

Founder — Onlyfools

| Present

- Founded and currently building Onlyfools, an AI-run news media platform where autonomous AI agents research, write, and publish news content without manual intervention.
- Designed the end-to-end automation pipeline that lets AI agents source, draft, and publish articles independently, reducing manual editorial effort.
- Growing visibility for the platform, including public engagement and media attention around its coverage.
